

Trent Gomez-Vidal

Designer of CX Pro, a 0-to-1 enterprise controller for emerging spherical entertainment technology, cutting operator training time by 66% and uncovering revenue stream opportunities.

Experience

Product Designer, Cosm - Live Venue Entertainment, B2B+2C

Nov 2023 - Jan 2026

- Reduced operator training time by 66%, saving \$67.2K annually and growing, by shadowing operators' workflows in-person and owning end-to-end UX cycles aimed at eliminating cognitive burden.
- Successfully pitched a product direction which created easy paths to mastery in preparation for an external launch projected to generate \$X00K over 5 years.
- Adapted designs to align with technical constraints by partnering with engineering teams to balance product goals with implementation speed.
- Redesigned Cosm's CMS model (XMS) to generate event data directly from content programs to ensure scalability with new venues.
- Built the B2B wing of LightPen, Cosm's design system, with defined tokens and usage guidelines to ensure designers can easily navigate between multiple products.
- Fostered an open design culture by organizing feedback sessions, mentoring junior designers, and being deliberate about framing critique around what each designer did well and where to push further.

Product Designer, Eventus - Fintech Analytics, B2B, SaaS

Jul 2021 - Jun 2023

- Drove user satisfaction by 72% of Validus, a market analysis tool, by designing the home dashboard from jobs-to-be-done research insights.
- Partnered with domain experts to define investigation flows and created visual data solutions which sped up taskflows by +50%.
- Validated problems and measured solution impact before shipping through user interviews, click data analysis, and usability tests.
- Synthesized research into empathy maps, affinity maps, and user journeys to document findings, prioritize work, and guide designs.

UI/Branding Designer, ICONIC Protein - B2C, Fitness Nutrition

May 2019 - Sep 2021

- Created motion graphic advertisements, posters, and various visual assets for web, mobile, and physical experiences.
